Underlying cause of Gender Pay Gap

Ringlink Services Ltd is confident that we have equal pay however we do have a Gender Pay Gap. The reasons for this are highlighted below.

Ringlink Services Ltd is a Temporary Workers Agency which provides labour predominantly to the Agricultural Sector, which traditionally is dominated by males.

Ringlink Services Ltd also provides training to many varied industries and has a Management Team in place to co-ordinate the organisation of courses and tests. Bonuses are paid to this team, annually on Company performance, on completion of 10 years' service and meeting targets, this accounts for the smaller proportion of Males and Females receiving bonuses.

This is particularly significant this year due to 1 member of staff being eligible to receive a bonus under all areas. This has had an impact on the Mean Bonus Gap, due to the staff member being female.

Our Gender Pay Gap Median rate is 8.3% which compares very favourably with the National Average Rate of 18.4%

Employers Actions to address Gender Pay Gap

Ringlink Services Ltd is actively promoting the Agricultural Industry in schools throughout Scotland to attract Males and Females into the sector. They are also working closely with Ringlink (Scotland) Ltd on their Pre Apprenticeship Scheme which is aimed at getting youngsters (Male & Female) into the Agricultural Industry.

Progress is being made and we will continue to work towards narrowing the gap.
